

Weekly Report

06/22/2015-06/28/2015

Research

This week, I start learning angularjs and I write some simple website according to tutorial. Besides, I read a paper about visual search, "Prediction of Search Targets From Fixations in Open-World Settings" and section 8.1 of the book, pattern recognition and machine learning.

Plan for next week

- Learn graphical models and angularjs.
